

CableEye M4 System and Accessories

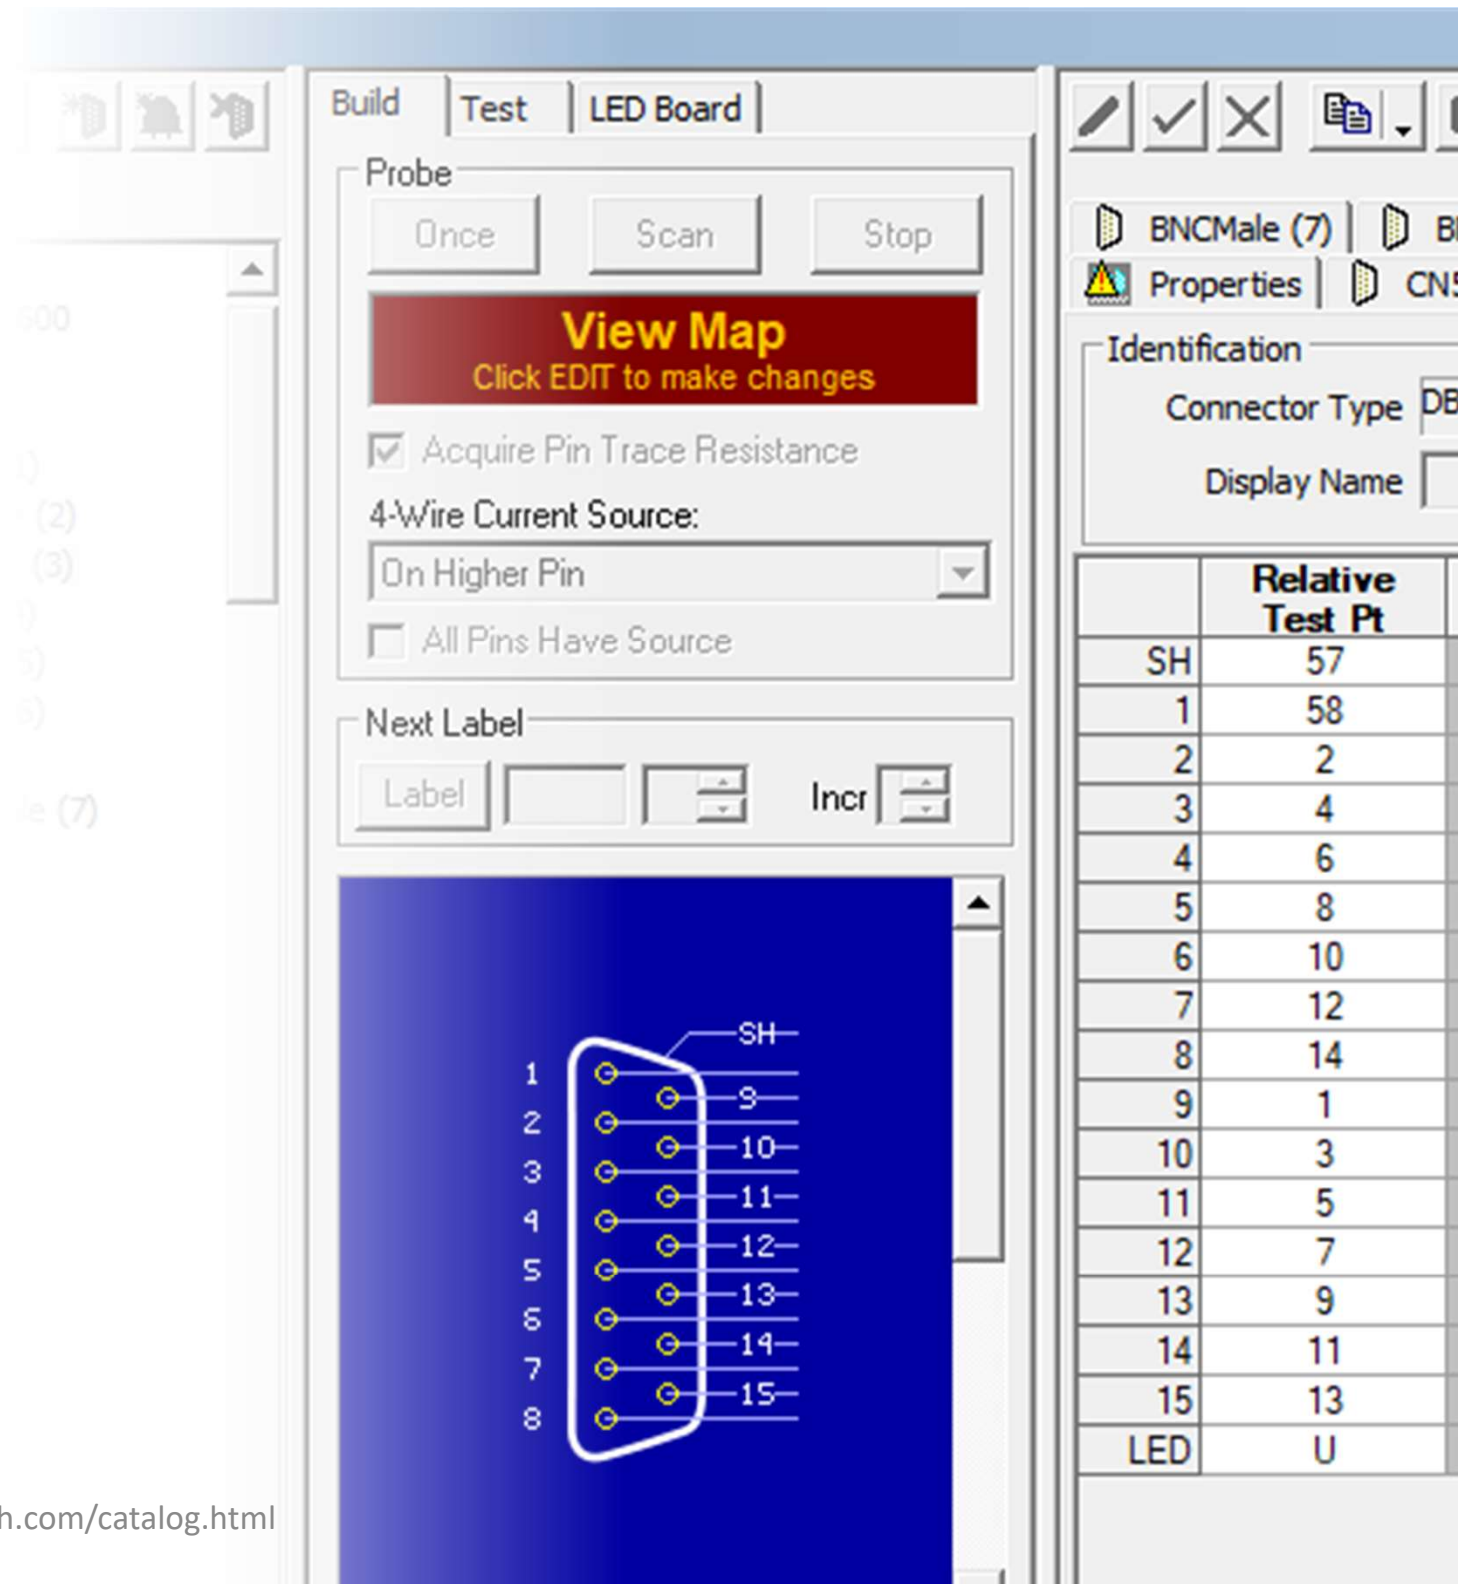

CableEye M4

- The CableEye M4 is a comprehensive cable testing system offering advanced capabilities for testing and analyzing cables with up to 152 test points. (128 + 24)

PinMap Software

- PinMap Software allows users to create and manage custom pinouts, enabling accurate testing of cables with non-standard or custom connectors.

Exporter Software

- **Exporter Software simplifies import/export cable data and test results to Excel and other formats for reporting and analysis.**

CB15C Connector Board

- The CB15C is a high-density connector board designed to interface with various types of cables and connectors.

CB43 Connector Board

- The CB43 is an adapter board supporting a wide range of D-Sub connectors for specialized cable testing applications.

CB18A/B/C Connector Boards

The CB18 series includes
CB18A, CB18B, and
CB18C boards for testing
cables with modular
RJ45 connectors.

CB3 Connector Board

The CB3 board is a universal interface for testing flat cables and other similar connectors (D-Sub 37 & 50)
